

Recommendations

Many things are already in place

- Improvement of clinical trials
- Emerging food and water borne diseases and zoonoses
- Develop cancer registries within the region
- Harmonize the guidelines for early detection of stroke
- Antibiotic resistance
- Intervention mapping for harm reduction, change in behaviour

- Existing network on infections (use it and create proposal)
- Organise regional info day and networking day
- Create list of contacts per topics, create expert groups (NCPs)
- Create/join association/ common institute for Public Health
- Website for announcement of events
- Use NCPs more (policy, capacity building/training, networking, resource pool of contacts)

- Attend conferences
- Coordination of activities
- Use existing data bases with researcher`s profile, harmonise data bases
- Use existing projects

WBC-INCO.NET:

- Give input to Work Programme
- Website www.wbc-inco.net
- Brokerage event Health
